

## RIDEKLEEN

Ridekleen has officially begun cleaning car fleets in Philadelphia, PA! Philly is no new territory for Ridekleen. Our founder, Pratik Patel, is a Drexel alum and has been a part of the Philadelphia community for years.

What started as two guys in a big yellow van, cleaning cars at night, has turned into a business. Our goal is to be the full service provider for our customers. Powered by technology, we enhance and simplify the car wash experience while remaining committed to being environmentally conscious.

Ridekleen strives to be the leader in fleet management. Car share users expect to enter clean, well maintained, cars. We want to help ensure customer satisfaction for the businesses we work with.

We believe Ridekleen can become the national leader in the mobile carwash industry.
